ALKON CORPORATION UNVEILS INNOVATIVE TRAILER SOLUTIONS: LIGHTNING® LIFT-AXLE VALVE AND MODULE-AIR®

Made in the USA: Innovative products from Alkon set a new standard for reliable and configurable solutions for trailer operations.

Fremont, OH – Alkon Corporation, a leading provider of high-quality pneumatic components and systems, is proud to announce the launch of two groundbreaking products: the Lightning® Lift-Axle Valve and Module-AIR®. Engineered to revolutionize trailer performance and reliability, these innovative products offer unparalleled accuracy, configurability, and durability for the transportation industry.

Lightning Lift-Axle Valve:

The Lightning Lift-Axle Valve sets a new standard in trailer performance, offering unmatched accuracy and speed. Designed to lift an axle within seconds, the Lightning Lift-Axle Valve activates with lightning speed in order to reduce tire damage during tight maneuvering and lowering again as soon needed. Its simple installation process is combined with centralized connection points to minimize leak paths and ensure airtight hassle-free maintenance for operators. Manufactured entirely in the United States, the Lightning Lift-Axle Valve guarantees superior craftsmanship and precise pressure regulation, setting a new benchmark for trailer aftermarket and OEM solutions.

Module-AIR:

Alkon's Module-AIR control system streamlines installation and provides endless valve configurability to the end customer, giving OEMs a strategic advantage over the competition. With reduced leak paths and centralized controls packaged in a durable composite box, Module-AIR provides a secure environment that gives peace of mind for quality valve operation for the entire lifetime of the vehicle. Manufactured in Alkon's state-of-the-art facilities here in the US, Module-AIR exemplifies the company's commitment to quality, responsiveness, and innovation, empowering trailer OEMs to gain a competitive edge in the market.

"Alkon Corporation is dedicated to engineering solutions that meet the evolving needs of the transportation industry," said Rich Yori, president at ALKON Corporation. "With the Lightning Lift-Axle

Valve and Module-AIR, we're proud to offer products that embody the 3 Point Promise that we make to each of our customers: to lead the industry with safe products that are built with integrity, and trusted by leading OEMS all throughout North America.”

About Alkon Corporation:

Alkon Corporation is a leading manufacturer and provider of high-quality pneumatic, integrated solutions for industrial and mobile markets. With a focus on safety, integrity, and trusted solutions, Alkon has earned a reputation for bringing Trusted Performance™ to every customer through products that are 100% tested before being shipped to customers. By partnering with OEM's and distributors that stretch across North America and beyond, Alkon is committed to delivering a reliable and competitive edge to their customers in both the industrial and mobile markets.
