

# EZ-Lift™ Automates Landing Gear!

Deploys/retracts at the push of a button!

No more tiring, risky hand-cranking!

# Operating landing gear is now as easy as flipping a switch.

## EZ-Lift™ Landing Gear Automation

EZ-Lift is Alkon Corp's new motorized landing gear technology designed to cost-effectively replace manual crank landing gear and improve productivity. EZ-Lift will revolutionize the way fleets handle their trailer drops and hooks.

Gone are the days of using a hand crank to drop or retrieve trailers multiple times a day in all kinds of nasty conditions. Gone, too, are potential workers' compensation claims and lost time due to injuries.

EZ-Lift is also a huge differentiator for your fleet in attracting drivers and yard staff, giving you an edge in a highly competitive labor market. EZ-Lift is easy to use and requires little training. Plus, drivers love it!

### TERRIFIC BENEFITS TO FLEETS AND DRIVERS:

#### Driver Incentives

- > Raise and lower landing gear with a flip of a switch
- > Eliminate driver fatigue
- > Reduce risk of injury in hot, wet or slippery conditions
- > Promote driver satisfaction

#### Fleet Owner Benefits

- > Gain an edge attracting and retaining drivers
- > Reduce workers' compensation claims
- > Save time
- > Achieve 100% ROI
- > Install in less than 2 hours

# Fast, easy installation.

With EZ-Lift, there aren't many parts. This translates to simple, fast installation. In fact, it's designed to install in under two hours!

Simple, intuitive instructions and an accompanying video are provided to streamline the entire process.

**INSTALLS  
IN UNDER  
2 HOURS!**

- > A snap to install
- > Simple operation
- > Full installation kit included with EZ-Lift

## HERE'S WHAT CUSTOMERS HAVE TO SAY:

*"I love using the system! It doesn't require any effort and it's very convenient. All I have to do is push a button".*

Fleet Driver

*"What I really like about EZ-Lift is that it's very easy to use and it doesn't need any maintenance. The drivers like it a lot, too".*

Fleet Maintenance Manager
