

# DuraLink™ Solution DOT Tubing and Fittings

Proudly made in the U.S., Alkon's DuraLink Solution pairs high-performance DOT tubing with proven push-to-connect fittings for unmatched strength and reliability. Exceeding FMVSS and SAE standards, it outperforms U.S. competitors and imports.

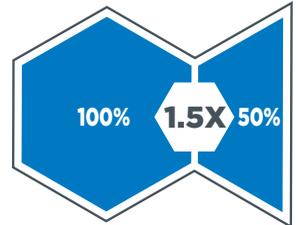

## DuraLink Performance Zone

Achieve nearly 2x the SAE specification for tensile strength.

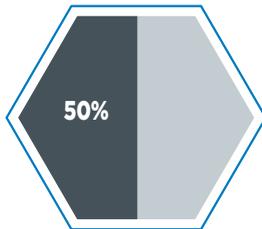

Provides unmatched elongation at 303% of the SAE standard.

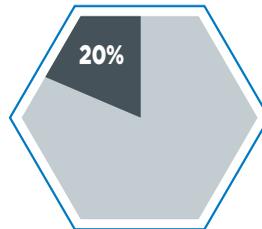

DuraLink tubing boosts competitor fitting performance by 1.5x.

## Where Competitors Fall Short

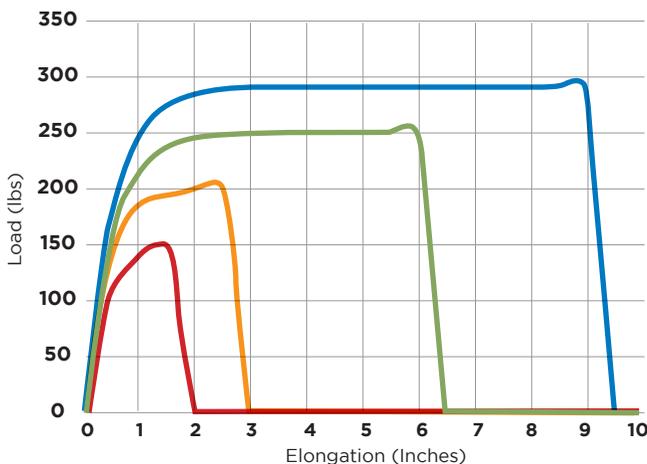

Import fittings and tubing fall 50% short of Alkon's tensile performance.

Domestic and import products reach only 20% of DuraLink's elongation.

## The Alkon Advantage

### DuraLink Solution vs. Competition

— Alkon DuraLink      — U.S. Competitor + U.S. Competitor  
— U.S. Competitor + Duralink      — Import

Based on 3/8" O.D. tubing and fitting test data

### Fitting Brand + Tube Brand Peak Load (lbf)

### DuraLink Tubing Improvement

Based on 3/8" O.D. tubing and fitting test data
