

ALKON NEWS

Trusted Performance for pneumatic and hydraulic components designed for industrial and mobile application.

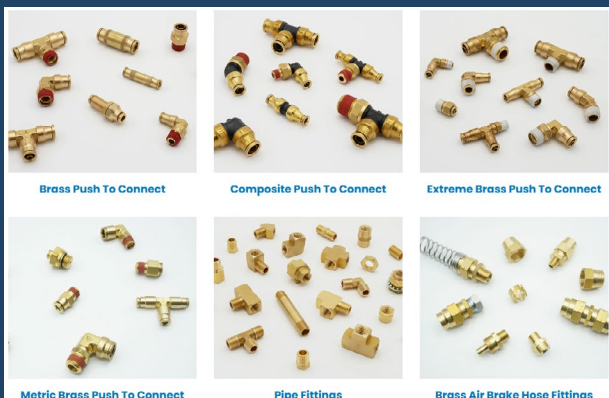

Updated DOT Fittings Resources and Compliance Information

We've recently updated the DOT fittings section of our website to improve the user experience and make the information you need easier to find.

The redesigned section provides streamlined access to product details, specifications, and DOT-approved fitting solutions. This enables customers to quickly identify the right components for their applications.

In addition, we continue expanding our educational resources around DOT compliance. These resources promote a stronger understanding of the importance of testing, performance, and sourcing fittings from reputable manufacturers.

Explore our updated DOT fittings section and learn more about Alkon's commitment to DOT compliance and trusted performance.

Trusted Performance Starts with the Right Team and Resources

Welcome Jason Weintraub to the Alkon Team

Alkon Corporation is excited to welcome Jason Weintraub as our new Northeast Regional Sales Manager.

Jason brings more than 20 years of sales and leadership experience. He is passionate about helping customers find the right solutions for their applications and building strong relationships along the way.

Working alongside Patty Sharp, his dedicated Inside Sales Specialist, Jason will provide responsive communication and dependable support throughout the Northeast.

Jason will be a valuable addition to the Alkon team as we continue advancing our mission of delivering trusted performance across every interaction.
